CLASSIC FRENCH DESIGN NEVER GOES OUT OF STYLE

# JARDIN

Jardin is a collection of garden furniture inspired by the beautiful woven French metal furniture of the late 19th Century. Jardin is both practical and affordable.

Each piece is galvanised before undergoing 4 individual paint finishing processes. This creates an aged look, so each new piece looks as though it has always been part of your home or garden. After prolonged damp periods, superficial rust stains may appear on the surface. These stains may be removed with a cloth and will not affect the structural stability. Whilst every care is taken in the various steps of production, the intricacy of the designs may, at times, inhibit total protective coverage of the metal surfaces.

Jardin's natural tones and casual elegance blend beautifully into any outdoor setting, from the smallest apartment balcony to rambling country gardens.
