

MIRTHE

DESIGNER

Fabian van Severen/Studio Segers

DESCRIPTION

With minimalism the genius is in the detail. The pure, clean lines of the Mirthe collection appear to flow into each other seamlessly.

Table legs fold perfectly around the table top and chair backs are an elegant curve sweeping down into the legs. Nothing is hidden in Mirthe's vision.

The designer opted purposefully for aluminium: robust, completely recyclable and ideal for outdoor use.

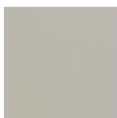

MATERIALS

- Frame : powdercoated 6mm plate aluminium

COLOURS

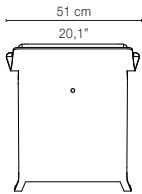

00-White

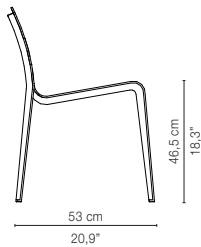

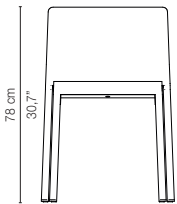

10-Linen

TECHNICAL DRAWINGS*

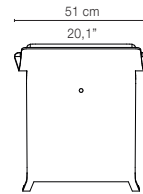

07410-xx Sidechair

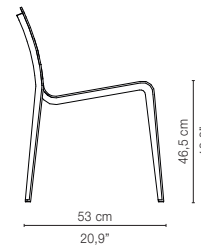

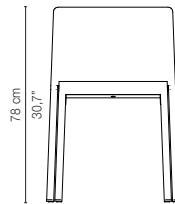

delivery unit: 4
 packaging:
 77 x 54 x 103 cm - 0,04 m³
 39,2 kg
 Seat cushion: C07434
 Seat + back: C07418

 delivery unit: 1
 packaging:
 309 x 119 x 25 cm - 0,92 m³
 128,5 kg

* The cushions on the drawings are not included in the article. Appearances, measurements and weights may slightly differ from reality.

CUSHIONS

The cushions are available with an outdoor filling (cat D & E) or a standard filling (cat A & B).

The references of the available cushions are listed on the previous pages.

Cat D & E: Outdoor filling, water permeable dryfoam. This type of filling has an open cell structure so air can circulate freely. Water passes through the filling but dries quickly thanks to the large open pores, inhibiting fungal growth.

Cat A & B: Filling with polyurethane foam. Although most of our fabrics are treated with teflon, which makes them water and dirt repellent, this type of filling is not water resistant. We advise you not to leave the cushions outdoors when raining. If the cushions do get wet, remove the filling and leave it to dry.

PROTECTION COVERS

Covers in waterproof, PU-breathable material are available for each item. Colour grey.

MAINTENANCE

Powdercoated aluminium is easy to clean with clear water and a pH-neutral fluid detergent. Stubborn stains can be removed with Aluminium Cleaner. If necessary, use a soft brush to remove the dirt from the pores. To protect the frame against the adhesion of dirt, Metal Protector with Teflon® can be used which applies an invisible protective film.
